

Admission standards at the University of Colorado at Boulder (CU-Boulder) are competitive, and students are expected to have excellent academic records. This chart describes credential and grade standards expected by CU-Boulder. Students who meet or exceed the credential or grade standards are encouraged to apply. However, meeting the minimum credential and grade requirements does not guarantee ad-

mission to any degree program at the university. Each degree program may vary in terms of its admission requirements with respect to course preparation, grade requirements, standardized test results, and English proficiency. Each applicant's records are evaluated on an individual basis. This chart is to be used for prescreening purposes only. The prescreening guide includes some of the countries from which we

receive applications. Since we receive applications from almost 100 countries, we cannot present a comprehensive chart. If your country is not listed on the chart and you possess an excellent academic record, you are encouraged to apply for admission.
