

AES Distinguished Speaker Series Presents:

VIJAY KUMAR

Professor & Nemirovsky Family
Dean at Penn Engineering

Monday, October 17, 2016
Wolf Law, Room 204
12:15 - 1:15 p.m.

FLYING ROBOTS: BEYOND UAVS

Vijay Kumar will describe his recent work in developing small, autonomous robots, and the design and the algorithmic challenges in the areas of **(a) control and planning, (b) state estimation and mapping, and (c) coordinating large teams of robots**. Kumar will also discuss robot applications in search and rescue, first response and precision farming.
