Frontier Knowledge

Providing support and inspiration for rural businesses and entrepreneurs

Background

Following conversations with some businesses and entrepreneurs in rural Colorado, it is clear that people are seeking support to help navigate the sudden change that is impacting their businesses.

Based on the vision and work of the **Rural Colorado Workshop Series** developed at CU Boulder, we believe there is an opportunity to provide some additional help now.

The concept is to establish a weekly session to explore relevant topics for rural businesses and entrepreneurs through panels and speakers and allow time for open discussion and Q&A.

We would love your help. If you are interested, please get in touch or go to:
