

A DBER Science Education Seminar **Predictive analytics to  
Enhance student success**

Beth Meyers & Ken Anderson Office of Undergraduate  
Education, University of Colorado Boulder

Monday, 13 January 2020 Porter BioScience B121 @ 3:30 PM

CU Boulder is employing student persistence predictions to enhance our student success initiatives on campus. We will discuss the impetus for change, the pilot project with Civitas Learning, where we are now and plans for expanding the use of predictive analytics at CU in the future.
