

CCA to CU Boulder Transfer Advising Guide for Electrical Engineering (B.S.)

[Electrical Engineering Department Website](#)

Program Overview:

Computer engineers (or computer hardware engineers) research, design, develop, test, and oversee the manufacture and installation of computer hardware, including computer chips, circuit boards, computer systems, and related equipment such as keyboards, routers, and printers. This field should not be confused with computer software engineers, who design and develop the software systems that control computers.

Admission Requirements:
