This supplemental report is a compliment to the main report **Community Outcomes: Summary of Survey at Thirteen Tacloban City Relocation Sites**. Both the main report and site supplemental can be found online at the Global Projects and Organizations website (<https://www.colorado.edu/lab/gpo/publications>). For any questions, comments, and requests regarding this report, contact Shaye Palagi at shaye.palagi@colorado.edu.

Letter to Relocation Communities

Dear community leaders and relocated households,

The data shared in the following pages is a direct result of your openness, honesty, and belief in sharing your experience. This research is not possible without you. The questions emerged after dozens of hours spent visiting your communities, chatting in your homes, and, in six sites, joining in participatory community mapping events. We have been humbled every time each of you took a moment out of your day to invite us in and speak frankly with us about your experience. We will never take lightly the trust you placed in when you shared your story.

As we would say at the beginning of each interview, we cannot promise that the research will have a direct or immediate impact on your life, but we still deeply believe that sharing your story is a critical part of improving disaster recovery and relocation efforts in the future.

Thank you for your enthusiastic willingness to participate. Please reach out, at any time, with any questions or concerns.

Gratefully,

Shaye Palagi and Dr. Amy Javernick-Will
Global Projects and Organizations Research Group

PRE-MOVE

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I am satisfied with how decisions were made for the construction of my resettlement community.	1.4%	13.0%	43.5%	42.0%	69
I am satisfied with how decisions were made for the planning and construction of my house.	1.4%	7.2%	42.0%	49.3%	69
My family was involved in the process of selecting which resettlement site we would move to.	-	66.2%	29.4%	4.4%	68

14.7 percent were informed of several sites and selected GMA Kapuso as one of their top choices. The remaining 85.3 percent felt they were told which site they would be transferred to and they had no ability to decide. The site has an average family size of 7.4 members.

SOCIAL CAPITAL

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I trust my neighbors.	2.9%	8.7%	53.6%	34.8%	69
Members of my community provide food for those in need.	-	14.5%	58.0%	27.5%	69
Members of my community provide medical care to neighbors.	-	26.1%	43.5%	30.4%	69
My community has successfully advocated for improvements to our relocation site.	-	5.8%	52.2%	42.0%	69
My community seeks and discusses support from other actors like organizations and institutions (like NGO, foundations, business sector, etc.) in case of a disaster.	-	35.4%	36.4%	28.3%	99

Relations with neighbors

	N: 69
I am not at all close with my neighbors: we never watch each other's children or share meals.	7.2%
We watch each other's children or share meals less than once a week and I do not think I could borrow money from them.	13.0%
We watch each other's children or share meals at least once a week. However, if I suddenly needed to borrow a small amount of money I do not think my neighbors would try to help me.	15.9%
We watch each other's children or share meals nearly every day. If I suddenly needed to borrow a small amount of money, my neighbors would do their best to help me.	60.9%

PROTECTION

Question	Strongly disagree	Disagree	Agree	Strongly agree	<i>N</i>
I have enough privacy living here.	3.8%	6.4%	46.2%	43.6%	78
I have never seen concerning looking strangers in our community before.	14.7%	38.2%	35.3%	11.8%	68
My community is a safe place for young women to live.	1.4%	17.4%	36.2%	44.9%	69
We have lighting in public spaces in our resettlement site.	1.5%	7.4%	44.1%	47.1%	68

ACCESSIBILITY AND HEALTH

Question	Strongly disagree	Disagree	Agree	Strongly agree	<i>N</i>
Most of what we need is nearby, so we do not need to go downtown often.	7.2%	34.8%	27.5%	30.4%	69
The children in our community have a school in or close to our community.	-	-	39.7%	60.3%	68
My family has access to doctors and health services.	-	2.9%	40.6%	56.5%	69
My health is good (not harmed) by living in the house.	1.4%	30.4%	40.6%	27.5%	69

ECONOMIC WELL-BEING

Question	Strongly disagree	Disagree	Agree	Strongly agree	<i>N</i>
My commute to work is affordable.	17.9%	53.8%	23.1%	5.1%	39
My family can easily afford jeepneys or multicabs (public transportation) into downtown.	-	15.4%	78.2%	6.4%	78
My family can easily afford the potable water we need.	3.9%	19.5%	48.1%	28.6%	77
We have enough resources to meet the basic needs of our family.	5.9%	47.1%	47.1%	-	68

LAND SECURITY

Question	Strongly disagree	Disagree	Agree	Strongly agree	<i>N</i>
My family owns this home.	4.5%	29.9%	35.8%	29.9%	67

HOUSING

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I am satisfied with my house.	-	4.4%	28.6%	67.0%	91
This house is better than the house I had prior to Typhoon Yolanda.	-	6.0%	16.0%	78.0%	100
This house is more comfortable than the living conditions we had before Typhoon Yolanda.	-	4.3%	21.7%	73.9%	69
The developers of my site subcontracted the work.	5.9%	25.5%	49.0%	19.6%	51

Construction defects

Minor	Among all respondents (N=110)	Among those reporting minor defects (N=57)
Roof issues	38.2%	73.7%
Unsmooth concrete floors	13.6%	26.3%
Hairline cracks	14.5%	28.1%
Broken windows	0.9%	1.8%
Hollow walls	0.9%	1.8%
Major	Among all respondents (N=110)	Among those reporting major defects (N=9)
Walls bowing out	-	-
Foundation cracks	1.8%	22.2%
Severe wall cracks	4.5%	55.6%
Steel bars exposed to elements	-	-
Wall not aligned with foundation	0.9%	11.1%
Uneven foundation (settling)	-	-
Roof joint issues	1.8%	22.2%

INFRASTRUCTURE

Septic system	"Yes"
Does your septic tank appear to be well constructed?	89.7%
Have you had any problems with your septic tank?	24.4%
N: 78	
If yes (past problems), on more than 5 occasions?	57.9%
If yes, were you able to fix them (or pay for someone to fix it or mobilize resources for it to be fixed)?	63.2%
N: 19	

Water access	Domestic	Drinking
Within a 10-minute walk?	100%	98.7%
Available daily?	60.3%	88.5%
Regulated?	11.5%	2.6%
Do you have to pay?	48.7%	97.4%

My new community has an action plan to make it safer.	1.4%	68.6%	24.3%	5.7%	70
The Tacloban City Government knows how to effectively respond to a disaster in my new community.	1.4%	22.9%	47.1%	28.6%	70

Operation Blessing

PRE-MOVE

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I am satisfied with how decisions were made for the construction of my resettlement community.	-	9.8%	46.3%	43.9%	41
I am satisfied with how decisions were made for the planning and construction of my house.	-	7.7%	30.8%	61.5%	39
My family was involved in the process of selecting which resettlement site we would move to.	7.0%	4.7%	72.1%	16.3%	43

53.5 percent were informed of several sites and selected Operation Blessing as one of their top choices. The remaining 46.5 percent felt they were told which site they would be transferred to and they had no ability to decide. The site has an average family size of 5.5 members.

SOCIAL CAPITAL

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I trust my neighbors.	-	4.7%	41.9%	53.5%	43
Members of my community provide food for those in need.	-	-	67.4%	32.6%	43
Members of my community provide medical care to neighbors.	-	4.7%	58.1%	37.2%	43
My community has successfully advocated for improvements to our relocation site.	14.0%	4.7%	60.5%	20.9%	43
My community seeks and discusses support from other actors like organizations and institutions (like NGO, foundations, business sector, etc.) in case of a disaster.	9.5%	4.8%	57.1%	28.6%	42

Relations with neighbors	N: 43
I am not at all close with my neighbors: we never watch each other's children or share meals.	0.0%
We watch each other's' children or share meals less than once a week and I do not think I could borrow money from them.	2.3%
We watch each other's' children or share meals at least once a week. However, if I suddenly needed to borrow a small amount of money I do not think my neighbors would try to help me.	11.6%
We watch each other's' children or share meals nearly every day. If I suddenly needed to borrow a small amount of money, my neighbors would do their best to help me.	76.7%

PROTECTION

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I have enough privacy living here.	-	2.3%	51.2%	46.5%	43
I have never seen concerning looking strangers in our community before.	2.3%	14.0%	46.5%	37.2%	43
My community is a safe place for young women to live.	2.3%	7.0%	39.5%	51.2%	43
We have lighting in public spaces in our resettlement site.	23.3%	46.5%	27.9%	2.3%	43

ACCESSIBILITY AND HEALTH

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
Most of what we need is nearby, so we do not need to go downtown often.	27.9%	41.9%	23.3%	7.0%	43
The children in our community have a school in or close to our community.	7.0%	11.6%	62.8%	18.6%	43
My family has access to doctors and health services.	-	4.7%	41.9%	53.5%	43
My health is good (not harmed) by living in the house.	-	14.0%	20.9%	65.1%	43

ECONOMIC WELL-BEING

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
My commute to work is affordable.	11.5%	53.8%	34.6%	-	26
My family can easily afford jeepneys or multicabs (public transportation) into downtown.	-	9.3%	81.4%	9.3%	43
My family can easily afford the potable water we need.	4.9%	19.5%	39.0%	36.6%	41
We have enough resources to meet the basic needs of our family.	9.3%	32.6%	58.1%	-	43

LAND SECURITY

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
My family owns this home.	7.0%	25.6%	51.2%	16.3%	43

HOUSING

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I am satisfied with my house.	-	2.4%	26.8%	70.7%	41
This house is better than the house I had prior to Typhoon Yolanda.	-	-	18.6%	81.4%	43
This house is more comfortable than the living conditions we had before Typhoon Yolanda.	-	-	20.9%	79.1%	43
The developers of my site subcontracted the work.	13.6%	27.3%	36.4%	22.7%	22

Construction defects

Minor	Among all respondents (N=44)	Among those reporting minor defects (N=12)
Roof issues	6.8%	25.0%
Unsmooth concrete floors	9.1%	33.3%
Hairline cracks	9.1%	33.3%
Broken windows	2.3%	8.3%
Hollow walls	-	-
Major	Among all respondents (N=44)	Among those reporting major defects (N=1)
Walls bowing out	-	-
Foundation cracks	-	-
Severe wall cracks	-	-
Steel bars exposed to elements	-	-
Wall not aligned with foundation	2.3%	100%
Uneven foundation (settling)	-	-
Roof joint issues	-	-

INFRASTRUCTURE

Septic system	"Yes"
Does your septic tank appear to be well constructed?	95.5%
Have you had any problems with your septic tank?	13.6%
N: 44	
If yes, on more than 5 occasions?	16.7%
If yes, were you able to fix them (or pay for someone to fix it or mobilize resources for it to be fixed)?	66.7%
N: 6	

Water access	Domestic	Drinking
Within a 10-minute walk?	100%	100%
Available daily?	84.1%	95.5%
Regulated?	4.5%	4.5%
Do you have to pay?	2.3%	84.1%
<i>N: 44</i>		

Electricity	"Yes"
Do you have daily electricity?	4.5%
Is any of your internal wiring faulty or damaged?	9.1%
Do you have restrictions on your electrical usage?	-
<i>N: 44</i>	

Note, although no Community of Hope (Operation Blessing) respondents stated they have electrical restrictions, it's worth noting their electrical system is unique in that respondents pay into a savings box in order to turn on their TV. The resulting savings are theirs to keep, but it the system may restrict electrical usage when cash flow is limited.

HAZARD EXPOSURE

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
During the earthquake, the houses in my community were not affected.	2.6%	6.5%	55.8%	35.1%	77
Strong wind has not damaged parts of my house.	35.9%	57.7%	3.8%	2.6%	78
When it rains our community does not flood.	-	-	39.7%	60.3%	78
When it rains we stay dry in our house.	5.1%	37.2%	32.1%	25.6%	78

RISK PERCEPTION

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
Big rain events will not cause flooding in my community.	-	-	38.5%	61.5%	78
During typhoons, my house will withstand the strong winds.	1.3%	11.7%	67.5%	19.5%	77
During typhoons, storm surge will not reach my community.	1.3%	-	29.5%	69.2%	78
My community is not in a landslide prone area.	-	1.3%	17.9%	80.8%	78
My house is exposed to toxins from a landfill.	1.3%	2.6%	22.4%	73.7%	76
My house is in a hazard prone area.	26.7%	68.0%	5.3%	-	75
I believe a natural hazard is likely to affect my community in the near future.	-	37.2%	33.3%	29.5%	78
My house now is at less risk than the house I was living in before Yolanda.	-	-	33.8%	66.2%	77

RISK REDUCTION

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I have a place to go for safe shelter should a disaster hit.	2.6%	44.9%	47.4%	5.1%	78
I have identified where the high risk or unsafe areas are located in our community.	2.6%	48.7%	41.0%	7.7%	78
Both women and men participate equally in disaster prevention in my new community.	3.1%	29.2%	44.6%	23.1%	65
My new community has an emergency response team.	13.6%	59.1%	25.8%	1.5%	66
I know the members of my community's emergency response team.	5.6%	77.8%	11.1%	5.6%	18
The team takes into consideration my point of view.	-	-	88.9%	11.1%	18
In my new community, I have a disaster warning system to alert me of a disaster before it strikes.	1.5%	26.9%	55.2%	16.4%	67
My new community leadership has the knowledge to develop effective risk reduction plans.	-	26.9%	50.7%	22.4%	67
My new community leadership acts in my best interest in planning for disasters and risk reduction.	1.5%	34.3%	43.3%	20.9%	67
My new community has an action plan to make it safer.	-	30.3%	53.0%	16.7%	66
The Tacloban City Government knows how to effectively respond to a disaster in my new community.	-	11.9%	67.2%	20.9%	67

PRE-MOVE

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I am satisfied with how decisions were made for the construction of my resettlement community.	11.1%	12.5%	50.0%	26.4%	72
I am satisfied with how decisions were made for the planning and construction of my house.	5.6%	13.9%	45.8%	34.7%	72
My family was involved in the process of selecting which resettlement site we would move to.	36.1%	38.9%	18.1%	6.9%	72

15.3 percent were informed of several sites and selected Villa Sofia as one of their top choices. The remaining 84.7 percent felt they were told which site they would be transferred to and they had no ability to decide. The site has an average family size of 4.4 members.

SOCIAL CAPITAL

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I trust my neighbors.	4.2%	12.5%	41.7%	41.7%	72
Members of my community provide food for those in need.	5.6%	25.0%	40.3%	29.2%	72
Members of my community provide medical care to neighbors.	11.1%	44.4%	22.2%	22.2%	72
My community has successfully advocated for improvements to our relocation site.	41.7%	31.9%	25.0%	1.4%	72
My community seeks and discusses support from other actors like organizations and institutions (like NGO, foundations, business sector, etc.) in case of a disaster.	26.8%	31.0%	28.2%	14.1%	71

Relations with neighbors	N: 72
I am not at all close with my neighbors: we never watch each other's children or share meals.	8.3%
We watch each other's' children or share meals less than once a week and I do not think I could borrow money from them.	22.2%
We watch each other's' children or share meals at least once a week. However, if I suddenly needed to borrow a small amount of money I do not think my neighbors would try to help me.	33.3%
We watch each other's' children or share meals nearly every day. If I suddenly needed to borrow a small amount of money, my neighbors would do their best to help me.	33.3%

PROTECTION

Question	Strongly disagree	Disagree	Agree	Strongly agree	N
I have enough privacy living here.	1.3%	5.0%	47.5%	46.3%	80
I have never seen concerning looking strangers in our community before.	13.9%	22.2%	30.6%	33.3%	72
