Why Should I Care?

- Useful to provide supplemental lectures on information
- Useful for having a few “virtual classes” instead of canceling classes for conferences, etc.
- Can be short & effective
 - May be 1-5 minutes for brief clarification points
 - Could be 20-30 minutes

How Does It Work?

- You can record yourself talking over PowerPoint slides (or Prezi presentation or anything on your computer screen).
- Download “TechSmith Relay Recorder” for free
- Record & upload through the program installed on your computer.
- Go to Canvas & post your video online.
